

RV 10.5001 Water choke valve

/// Data Sheet

To regulate the water flow. The integrated magnetic valve/opens the water circuit during automatic distillation. The integrated fine adjustment allows user to reduce the flow of the cooling water, optimizing water consumption. Accessory recommended for tap water connection.

Power: 24 V / 6 W

Connection \varnothing : 10mm

Integrated fine adjustment: yes

Weight: 0.234 kg

designed for scientists

Technical Data

Weight [kg]	0.1766
Permissible ambient temperature [°C]	5 - 40
