

## F95-SL Ultra-Low Refrigerated / Heating Circulator

Ultra-Low Refrigerated Circulators with SL circulator impress with their high heating, cooling and pump capacities for external temperature control applications.

#### **Product features**

- VFD COMFORT DISPLAY
- LCD DIALOG DISPLAY backlit for convenient interactive operation
- Keypad for setpoints, warning/safety values and menu functions
- ICC (Intelligent Cascade Control), self-optimizing temperature control
- TCF Temperature Control Features to optimize the control behavior
- ATC3 3-Point-Calibration
- Pt100 External sensor connection for measurement and control
- SMART PUMP, electronically adjustable pump stages
- Adjustable high temperature cut-out, visible via display
- RS232/RS485 interface for online communication
- Integrated programmer for 6 x 60 program steps
- Connections for solenoid valve and HSP booster pump
- · Proportional cooling control

#### Performance values

400V/3PNPE/50Hz (Plug 32A CEE)	
Heating capacity kW	3
Viscosity max. cST	70
Pump capacity flow rate I/min	22 26
Pump capacity flow pressure bar	0.4 0.7
Maximum suction bar	0.2 0.4
Power A	24

Refrigerant varian	ts

#### **All Benefits**

#### 100% Checked.

100% testing. 100% quality. Each JULABO Circulator undergoes thorough quality testing before leaving the factory.

#### Green technology.

Development consistently applied environmentally friendly materials and technologies.

#### JULABO. Quality.

Highest standards of quality for a long product life.

#### Quick start.

Individual JULABO consultation and comprehensive manuals at your disposal.

## Satisfied customers.

11 subsidiaries and more than 100 partners worldwide guarantee fast and qualified JULABO support.

## Services 24/7.

Around the clock availability. You can find suitable accessories, data sheets, manuals, case studies, and more at www.julabo.com.

#### Intelligent temperature control.

Intelligent cascade control - automatic and self-optimizing adaptation of the PID control parameters with external stability of  $\pm$ 0.05 °C.

#### Connection of additional equipment

Stakei connections for solenoid valve, HSP booster pump and HST booster heater

# Early warning system for high/low temperature

Maximum safety for applications, optical and audible alarm, convertible to automated cut-off function

#### Clever pump system

Reliable and consistent pump capacity, electronically adjustable pump stages

#### For flammable bath fluid

Classification III (FL) according to DIN 12876-1

#### Process. Under control.

Full regulation of the dynamics control, access to all important control parameters for individual process optimization.

#### 100 % Cooling capacity

'Active Cooling Control' for cooling available throughout the entire working temperature range, fast cool-down even at higher temperatures

#### **Energy saving cooling**

Proportional cooling control for automatic adjustment of cooling power or temporary switch-off of compressor as needed to save up to 90 % energy in comparison to unregulated cooling machines

#### Condensation and ice protection

A heated cover plate prevents condensation or ice build-up in the bath

### Control of the external application

External Pt100 sensor connection for precise measurement and control directly in the external application

#### ATC3. Calibration.

'Absolute Temperature Calibration' for compensating a physically caused temperature difference, 3-point calibration.
