Awarded with China Certificate for Ecolabelling Products, certificate numbers: CQC18702198376.

### High-precision Temperature Control

- Digital temperature display, simultaneously display the chamber temperature, power supply voltage, ambient temperature and other parameters etc. The running status is clearly displayed;
- The high-precision microcomputer temperature control system and platinum resistor temperature sensors enable users to set temperature inside the cabinet within a range from -40°C to -86°C.

### Refrigeration System

- The imported high-efficiency compressor and EBM fan are energy-saving and highly efficient;
- The large finned condenser with a space between fins  $\leq 2\text{mm}$ , providing effective heat dissipation;
- Standard with VIP board for high efficiency cooling performance. Door with hot gas pipe surrounding for defrost.

### Supplies for Cryopreservation

Freezer racks/boxes for cryopreservation are optional.

### Thermal Insulation System

- The insulated foamed outer door with seal design prevents loss of cooling capacity effectively;
- The six sides of the cabinet are made from high performance vacuum insulation material, greatly improving thermal insulation performance.

### Security System

- The perfect audible & visual alarm system: high/low temperature, sensor failure, door ajar, power failure, low battery etc;
- The turn-on delay and stopping interval protection can ensure reliable operation;
- The keyboard lock and password protection can prevent any adjustment of operation without permission.

### Human-oriented

- The door with new-type assisting door handle to be opened easily;
- Door handle with lock for safety operation.
- 304 Stainless steel interior, low temperature resistance anti-corrosion for long service life and easy cleaning;
- Universal wheels easy for movement and fixation.

## Scope of Application

Suitable for use in blood banks, hospitals, health and disease prevention systems, research institutions, colleges & universities, the electronic industry, biological engineering, laboratories in colleges & universities, military enterprises, deep-sea fishing companies, etc.
